Details of Complaint

Complaint Details

The complainant wished to remain anonymous. (b) (7)(C) [REDACTED]
[REDACTED] near the Simplot facility in Caldwell, ID. The complainant noticed there were large piles of manure at the Simplot facility which were covered with grass. The complainant stated that she saw runoff from the manure piles entering the river and has recently had a water

sample from the river tested. She stated that the water sample was found to be high in nitrates. I stated I would follow up on her complaint by forwarding it to the appropriate state agency.

Final Action Information	
Date Final Action Taken:	10/01/2007
Final Action Taken:	Referred to other State Agency
Add Reasons for Final Action Taken:	Forwarded to ISDA for follow up on complaint regarding discharge/runoff from the manure piles into adjacent Boise River. ISDA conducted an inspection at the facility and found that while there were old manure piles, there was no way that runoff from those piles could have reached the Boise river. She stated she also checked other facilities in the area and found
